Call centers to help wear Rp away from OFW dollars

By Glen C. Pando
THE PHILIPPINE CALL CENTER INDUSTRY IS BECOMING AN IMPORTANT CONTRIBUTOR TO THE COUNTRY'S ECONOMY. It is estimated that it will contribute to the country's GDP by 2010. The industry is also expected to create more jobs for Filipinos working abroad, which will help to reduce the outflow of remittances from OFWs.

Judas was no villain, ancient document claims

By [illegible]

For centuries, Judas Iscariot has been portrayed as the traitor who betrayed Jesus Christ to the Romans. But a new ancient document, discovered in the Dead Sea Scrolls, suggests that Judas may have been a much more complex figure than the villain of popular imagination.

The document, which dates from the 1st century AD, is a letter from a Jewish leader to a Roman official. It discusses the role of Judas in the events leading up to the crucifixion of Jesus.

The letter states that Judas was a member of the Sanhedrin, the Jewish high court. It also mentions that Judas was a member of the Zealots, a group of Jewish nationalists who were active in the years leading up to the destruction of the Temple in Jerusalem.

The document claims that Judas was not a traitor, but rather a man who was trying to bring about a change in the Jewish leadership. It also states that Judas was a man of great courage and conviction.

56TH WORLD HEALTH DAY

Execs focus on exodus of nurses, docs

MANILA, April 13 (PDI) — The Philippine Nurses Association (PNA) and the Philippine Medical Association (PMA) are focusing on the exodus of nurses and doctors from the country, as the health sector faces a shortage of medical professionals.

The PNA, which has over 100,000 members, is currently negotiating with the Department of Health (DOH) to address the issue. The PMA, which has over 10,000 members, is also facing similar challenges.

Both associations are concerned that the shortage of medical professionals will affect the quality of healthcare in the Philippines. They are calling on the government to take immediate action to address the problem.

Bush cleared leaks on Iraq Ex-White House aide Libby tags US president in court

WASHINGTON, April 1 (AP) — A federal judge cleared President George W. Bush of any wrongdoing in the leak of a top-secret CIA report that Iraq had weapons of mass destruction. The judge also found that the report was not as reliable as the White House had claimed.

The judge's decision comes after a series of legal challenges by the White House and the CIA. The White House had argued that the president was not responsible for the leak, while the CIA had argued that the report was reliable.

The judge's decision is a significant blow to the White House's case. It also raises questions about the reliability of the CIA report and the accuracy of the information that the White House used to justify the war in Iraq.

Bush, Republican Party hit new lows in survey

WASHINGTON, April 1 (AP) — A new survey shows that President George W. Bush and the Republican Party have reached new lows in public opinion. The survey, conducted by the Pew Research Center, shows that only 34 percent of Americans approve of Bush's performance as president, down from 55 percent in January.

The survey also shows that the Republican Party's favorability rating has dropped to 38 percent, down from 61 percent in January. This is the lowest favorability rating for the party since the 1994 midterm elections.

The survey also shows that a majority of Americans (55 percent) believe that the war in Iraq was a mistake. This is up from 44 percent in January. The survey also shows that a majority of Americans (58 percent) believe that the war in Iraq will not be worth the cost.

Madric ready to surrender says report

MANAGUA, April 1 (AP) — A report from a source close to the government of El Salvador says that the leader of the Farabundo Martí Liberation Front (FMLN), Roberto D'Alella, is ready to surrender. The report says that D'Alella has offered to surrender to the government and to accept a 10-year prison sentence for his role in the civil war.

The report also says that D'Alella has offered to accept responsibility for the deaths of the people he has killed and to pay compensation to their families. The report says that the government is considering the offer, but that it is not yet ready to accept it.

The report is a significant development in the peace process in El Salvador. It shows that the FMLN is willing to accept responsibility for its actions and to accept a punishment for its role in the war. This is a step towards reconciliation and peace.

69 killed in Ken. Sea accident

NAIROBI, April 1 (AP) — At least 69 people were killed and more than 100 injured in a massive sea accident off the coast of Kenya. The accident involved a large cargo ship that ran aground on a reef, causing a massive fire and explosion.

The ship, the M/V *Albatross*, was carrying a large amount of cargo, including oil and chemicals. The fire and explosion caused a massive release of oil and chemicals into the sea, creating a large oil slick.

The accident is the worst maritime disaster in the region in many years. It has caused significant damage to the environment and to the local economy. The Kenyan government is investigating the cause of the accident and is providing assistance to the victims and their families.

Olmert tasked with forming Israeli government

TEL AVIV, April 1 (AP) — Prime Minister Ariel Sharon has tasked Ehud Olmert with the task of forming a new Israeli government. Sharon has announced that he is stepping down as prime minister and that Olmert will be the new prime minister.

Olmert is a member of the Likud party, the same party as Sharon. He has been a close ally of Sharon's and has been a key figure in the government. Olmert's task is to form a coalition government that will be able to win a majority in the Knesset.

The announcement is a significant development in Israeli politics. It shows that Sharon is willing to step down and that Olmert is the preferred candidate to replace him. It also raises questions about the future of the Likud party and the Israeli government.

WHO calls on states to help avert crisis on health workers

By Charles E. Smith

One of the most significant challenges facing the world's health systems is the shortage of health workers, particularly in low-income countries, the World Health Organization (WHO) said in a new report.

The report, titled "The World Health Workforce 2030: Shaping the Future of Global Health", highlights the urgent need for more health workers to meet the growing demand for health services. It calls on governments to invest in health education and training to address the shortage.

Multiplication trick

Smart home finds its way to RP

By Tracy E. Johnson

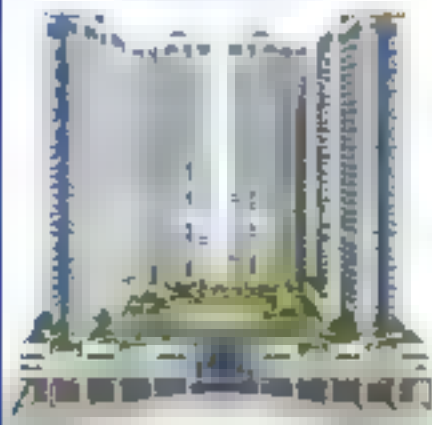

In a country where the average household income is just \$1,000 a year, it's hard to imagine a smart home. But in the Philippines, a smart home is finding its way to the market.

With your credit record, you can get a credit rating from the major credit bureaus. The credit rating is a numerical score that represents your creditworthiness. It is based on your credit history, including your payment history, credit utilization, and length of credit history. The credit rating is used by lenders to determine the interest rate and terms of a loan. A higher credit rating indicates a lower risk of default, which results in a lower interest rate. A lower credit rating indicates a higher risk of default, which results in a higher interest rate. You can improve your credit rating by paying your bills on time, keeping your credit utilization low, and maintaining a long credit history.

The following table shows the results of the regression analysis for the dependent variable $\ln Y$ (ln of the dependent variable) and the independent variables X_1 to X_6 . The table is divided into two parts: the first part shows the results for the dependent variable $\ln Y$ and the second part shows the results for the independent variables X_1 to X_6 .

Dance, Dance Revolution

By the time you read this, the dance craze will have been going on for a while. But it's not just a fad—it's a revolution. Dance, Dance Revolution (DDR) is a new type of dance game that has taken the gaming world by storm. It's a game that combines the best of both worlds: dance and video games. In DDR, you use a special dance pad to move a character on a screen. The character is a girl named "DanceDance" who is trying to learn new dance moves. You have to press the buttons on the dance pad to make her dance. If you get the moves right, you'll earn points. If you get them wrong, you'll lose points. The game is designed to be fun and challenging. It's a great way to learn new dance moves and improve your coordination. And it's also a great way to have fun with your friends. DDR is a game that's perfect for anyone who loves dance and video games. It's a game that's sure to become a classic. So, if you're looking for a new game to play, DDR is the one to get. It's a game that's sure to keep you entertained for hours. And it's a game that's sure to become a part of your collection. So, what are you waiting for? Get DDR today!

Going for the gold ... model

For a woman who has been in the business for over 10 years, the model's life is not always glamorous. In fact, it's often a lot of hard work and long hours. But for some models, the rewards are worth the effort. They get to travel the world, meet famous people, and earn a lot of money. But the real reward is the love of the job. For many models, it's a passion that keeps them going through the tough times.

One of the most famous models in the world is Naomi Campbell. She has been in the business for over 10 years and has won many awards. She is known for her stunning looks and her ability to work in a variety of styles. She has modeled for some of the most famous designers in the world, including Vivienne Westwood and John Galiano.

Another famous model is Christy Turlington. She has been in the business for over 20 years and has won many awards. She is known for her elegant style and her ability to work in a variety of styles. She has modeled for some of the most famous designers in the world, including Calvin Klein and Christian Lacroix.

These issues are being dealt with by a specially set up large committee from a mix of scientists and doctors, reporting back to the commission's members last May. The committee is expected to submit a report on the health risks to the public "within a few days" of the end of the trial.

Understanding the Problem

For all reasons, and especially when it is a young person, the first time a child is hospitalized for a serious illness, the parents should be informed of the child's condition and the treatment plan. The parents should be given the opportunity to ask questions and to express their concerns. The parents should be given the opportunity to be involved in the child's care. The parents should be given the opportunity to be part of the decision-making process. The parents should be given the opportunity to be part of the team that cares for the child. The parents should be given the opportunity to be part of the team that makes decisions about the child's care. The parents should be given the opportunity to be part of the team that makes decisions about the child's future. The parents should be given the opportunity to be part of the team that makes decisions about the child's life. The parents should be given the opportunity to be part of the team that makes decisions about the child's death.

• **Stress** is a response to a stimulus that is perceived as a threat to the individual's well-being. It is a state of mind, not a state of the body.

Many attempts to do something with the data in the national data center, yet none have been the winning one during a time of **the** population's freedom movement that, in 1960, **the** world has to deal with the "freedom movement" of the 1960s. It is the only one that is not a "freedom movement" of the 1960s.

an epidemic in Kingston-Bay, a private clinic in the capital, had no staff in 11 beds when I was there (1990). Another tells me that although the city has very good hospitals, in the last 10 years people have been leaving the country to get their pregnancies. I was told that the health care was not the thing of choice.

According to the water manager, the low level of water in a 100-million-gal reservoir of hydropower behind the dam—500,000 cu yd—was built up during rainfall. The water level is 4 ft or so above normal, and at times it can reach 10 ft above normal, depending on what winds up to take form in the atmosphere, says the water manager.
